

PiNWi Sample Report

This is the preview of the PiNWi Interests Reports and details of the Insights you gain access to when you use the app.

Data Quality Badge

Every PiNWi report is ranked for the quality of data it uses for analysis. The quality is based on the consistency and frequency of data received from the child. Neha is at level 4. Level 5 reports are the most reliable and realistic.

Exhilarators – These are key interest Drivers common across activities that make Neha the happiest!

Unexciting – These key interests drive activities, Neha is not too excited about doing.

Interest Patterns

An insight into Neha's interest framework analyzed over a period of time. They indicate interest drivers that define interests independent of her age and activities.

New Found – Never showed up as exhilarators before, these are interests driving activities Neha recently started .

This is NEHA'S INTEREST REPORT. It is refreshed weekly to keep Neha's parents up to date with her ever-evolving interests.

Interest Drivers

PiNWi maps children's interests across 17 key Interest driving factors. A sneak peak into what drives Neha's interests.

Amusers – These might not exhilarate her, but they do keep her amused and occupied.

Unexplored – Neha has not been exposed to activities that explore these interests. She can explore new activities to know if these interests drive her!

Long Held – Interests that consistently exhilarate Neha over a period of time.

See-Saw – They come and go! Interests inconsistent as Exhilarators.

Delight Trends

A list of Neha's top 10 most loved activities. A way to see how consistently (or not) these activities make her happy!
